

## KEYNOTES AND FULL-DAY TRAININGS OFFERED BY JILL HELLWIG:

Any of these programs can be adjusted to fit your business, ministry, non-profit organization or personal life. Schedule a time to talk with us today!

**Zig Ziglar Certified Courses:** The material found in these workshops are based on the philosophy and writing of Zig Ziglar (1926-2012). Zig Ziglar invested his life helping others get everything they want out of life. He is considered one of the greatest motivators, teachers and success mentors in history. It is said that his message of encouragement has reached over 250 million people worldwide. Jill was the #1 Salesperson for the Zig Ziglar Corporation for 14 years until she "retired" from the firm to follow a call into full time ministry. In 2016, she became a Ziglar Legacy Certified Trainer and is commissioned to carry forth Zig Ziglar's legacy of positivity around the world. The following are topics she has been empowered to teach with her own personal touch:

- **Goal Setting and Achievement**
- **Building Winning Relationships**
- **Building the Best You**

**Our Specialty Programs:** These simple how-to programs combine our years of coaching and business expertise to bring best practices and easy-to-implement principles for you and your team:

- **Leading with Intention** – Too often, leaders manage or lead from their own perspective, not knowing how to identify and effectively communicate vision to their team. Learn how to lead with confidence, purpose, and intention as you create a winning culture on your team.
- **P.U.S.H.** – In this inspiring and engaging workshop, your team will learn to transform your perspective of obstacles in order to help them see the opportunity in the midst of challenge. The result is a versatile mindset that generates growth and produces hope for all contributors who are undergoing change.

- **Engage for Success** – ‘When a person is in the right role, he knows it and so do his peers because he is good at what he does.’ - Gallup The statistics are staggering, nearly 7 in 10 employees in America are either disengaged or actively disengaged. What is the cure for this kind of “zombie-like” culture? In this course we’ll develop the leadership and cultural principles which drive success, deliver productivity, and create understanding and connection between all levels on your team.
- **Brand New U** - In Jill’s flagship program, she teaches your team the simple (not necessarily easy) steps essential to creating a winning brand. Watch your organization transform as you unlock the hidden potential within your corporate brand and within each team member. Learn to differentiate yourself from the competition, clearly articulate your offer and make purchasing decisions easier for your buyers. This flagship system teaches you to focus on your strengths, fine-tune your sales system and effectively find the specific work flow that produces each person’s best results.
- **Grow with Goals** - Focus. Creativity. Connection. Productivity. Have a new team by Friday (without hiring anyone new!). Learn the necessary components to having an achievement-oriented goals program for your entire organization. You will activate the effective and intentional systems to align Vision, Mission, Values and Goals. By also incorporating Accountability, you will see growth and results immediately.
- **Sell Like a Girl** - There is a new generation of women poised to become natural business leaders through their relational and intuitive gifts. When a woman of purpose walks into a room, engaged with sincerity, permeating with perception and compelled with compassion, there is no force on earth that can keep her from shifting the modern day workplace. In this workshop business women will learn to lead with more confidence, self assurance and perspective as they advance their careers with purpose.
